Resume

SUMMARY

Early childhood education graduate currently pursuing an MSc in Digital Education at Xi'an Jiaotong-Liverpool University. Combines hands-on kindergarten teaching experience with a strong foundation in curriculum design, child development analysis, and multimedia-assisted instruction. Skilled in SPSS data analysis and educational research, with proven communication, organizational, and problem-solving abilities.

EXPERIENCE

Preschool Teacher

2025.03 — 2025.06

Xiao Xiao Kindergarten · Suzhou

- Independently planned and delivered lessons, enhancing classroom engagement and instructional communication.
- Guided children's daily behavior and habits through structured activities, strengthening content organization and activity execution skills.
- Integrated multimedia tools to support teaching, building proficiency in educational technology and communication techniques.

Preschool Teacher (Practicum)

2024.04 — 2024.05

Zhushan Kindergarten

- Designed classroom environments around weekly themes (parent-child sports day, Mother's Day gratitude, etc.), incorporating painting, paper-cutting, and crafts to strengthen visual expression and creativity.
- Assisted lead teachers in compiling children's growth portfolios; analyzed behavior through video records and daily observation, contributing to personalized education strategies and teaching plans.

Research Project Participant

2021.09 — 2025.06

Nanjing Xiaozhuang University

- Participated in two teacher innovation projects, using SPSS for data analysis and co-authoring team reports that contributed to successful completion and provincial-level recognition.
- Graduation thesis built an employment competency model for the digital-intelligence era through questionnaire surveys and data analysis, winning First Prize at the 19th National Preschool Education Outstanding Thesis Competition (Undergraduate Category).
- Demonstrated strong information integration, logical thinking, teamwork, and project advancement capabilities.
